WHITE HOUSE PERQUISITES

Election to the Presidential office brings fame, power and opportunities for wide usefulness, but this is not all that the exalted position offers. The White House is an exceedingly comfortable berth, and on a salary of 75,000 a year a thrifty President can save quite a lot of money even in these times. A President's expenses have been estimated at about $25,000 annually, but if he chooses he need not spend so much. His chief expense is entertaining, and beyond that and the cost of food and clothing he pays for very little. He gets his palatial home with heat and light free and most of his servants are paid out of the public treasury, those furnished him gratis including even his valet and his wife's maid. The government pays for four men "chambermaids," two laundry women, the butler, the housekeeper, two chauffeurs, and a social secretary. The President himself pays only the cook, an assistant cook, a scullion, and two or three other servants—a very curious distinction or drawing of the line.

All the upkeep and new furniture for the White House are paid for by the government. The cost of entertainments is greatly cut down because the Marine band furnishes the music and the greenhouses offer an abundance of plants and cut flowers the year round. The President has a yacht at his command and the government allows him $25,000 a year for his travelling expenses. He has even a summer cottage to which he may retire if he elects to remain in Washington, located in a beautiful park surrounding the Soldiers' Home in the outskirts of the city. His doctors' bills are paid, his telegrams are free, and even stationery is furnished him gratis. All this amounts to much less than the great salaries paid European monarchs, but the President is well cared for by his country.

AN OLD BONE OF CONTENTION.

It is reported from Richmond that the president of the Chatham Episcopal Institute, objecting to a lecture on Harriet Beecher Stowe, cancelled the engagement, whereupon the principal and most of the teachers, who were graduates of Northern colleges, resigned. Commenting, the Philadelphia Record says: "If the lecturer was equal to the occasion he would find much to criticise as well as to praise in the famous story of nearly seventy years ago, for Mrs. Stowe was by no means a shining light in letters. Are Virginians so sensitive about 'the peculiar institution' of the ante-bellum South that they cannot bear to have it discussed?

The president of the Chatham Institute may not be widely representative in these times, and it is quite possible that he has read only the heated comments of an earlier time and is unacquainted with "Uncle Tom's Cabin" itself. However, that may be, there are Southern writers who have discussed the book in an open-minded way. Joel Chandler Harris said in his preface to "Uncle Remus", that, while Mrs. Stowe depicted the evils of slavery, she presented the better type of slaveholder and defended him. The following interesting reference to "Uncle Tom" may be found in the Life of Alexander H. Stephens, published in 1908 by a Georgian: "The author wrote of conditions in the slave States from hearsay, the local color was factitious and unreal, the negroes were idealized white people with black skins; but as a denunciation of traffic in human beings the book still impresses its readers as one of unusual power, whose influence at the time may be [illegible] understood."

COMPOSITE CITIZEN SENSIBLE

The failure of the "overalls" movement is gratifying and reassuring. It indicates that the people of the country are not as hysterical as some would-be leaders. To buy new overalls to wear over or in the place of clothing already owned would not be a measure of economy but would increase the demand for new goods. Reports indicate that the people of the country are adopting the same and sensible policy of wearing old clothes a little longer and thus decreasing the demand for new goods, saving something to themselves in the wear they get out of the clothing and relieving the shortage of labor and commodities. All the people taken in the composite have more wisdom than any one man or small group of men.

Opening of Panama Canal.

In 1914, on August 15, the Panama canal was formally opened to the world. The canal had been nine years in building. The total cost of construction, exclusive of fortifications, civil government and payments to the republic of Panama, was approximately $357,000,000. The first passage after the formal opening of the canal was made by the steamship Ancon, Colonel Goethals, governor of the canal zone, was on board. The passage from Cristobal to Balboa was accomplished in nine hours.

Professional Enemies of Crocodile.

There are men whose business it is to catch crocodiles and who earn their living by that means. And whenever a human being has fallen a victim a professional crocodile catcher is asked to help to destroy the murderer, and a large reward offered him. The majority of natives will not interfere with the reptiles, or take any part in their capture, probably fearing if they do anything of the kind they themselves may some time or other suffer for it by being attacked by a crocodile.

Why Wedding Ring Is Plain.

From the early times gold was used for the wedding ring, and tradition has it that the ring should be absolutely plain. It has been long recognized that the diamond ring can never replace the plain band ring. A reason for the preference given to the ring without the setting is offered by Fuller in his "Holy State," where he says: "Marriage with a diamond ring foreshadows evil, because the interruption of the circle augured that the reciprocal regard of the spouse might not be perpetual."

Isle of Napoleon's Exile.

False conceptions prevail of St. Helena, where Napoleon lived and died after his defeat and humiliation at Waterloo. It is credited with being a most ugly island. Exactly the opposite is the case. Not only is it not a rock, but a very beautiful, well-wooded and well-watered island, and also, on the whole, if one had to choose the most perfect climate existing anywhere in this world, the prize would have to go to St. Helena, and especially that part in which Longwood (Napoleon's residence) is situated.

Describing a Giant.

The mathematical man can see the fun and mistakes in calculating the size of things. No one has ever given me an impression of bulk such as that of the late Professor Clifford—a famous mathematician and an occasional humorist. In a lightsome essay he described the giant whose favorite food was bread and butter sprinkled with light brown horses.—London Chronicle.

A Slip of the Tongue.

I'm quite sure the most embarrassing moment of my life was when I met my friend Jim ——, whose very rich father had just died. Intending to extend to him an expression of my sympathy, by some lapsus linguae I said to him: "Jim, I've just heard of your father's death, and I want to extend to you my sincere congratulations."—Exchange.

Labor Saving.

A boy was in the act of taking a short road through a plowed field, when the farmer, observing him, shouted: "Hi, there's no road there!" The boy turned around, and, feeling that as twenty yards lay between him and his irate accuser he was safe, coolly replied: "So I see; but you need not trouble to make one. I shall not come back this way."

SIMCO SALVE

It is Offered You as an Ointment Entirely Out of the Ordinary With A Healing Power Seldom Equaled

For terrible sores, cuts, burns, bruises, piles, eczema, salt rheum, or chafing. It is practically a whole shelf full of remedies in one jar and F. J. John will supply you for only 20c. It is handy for the scores of little accidents or sudden colds that might occur at any minute.

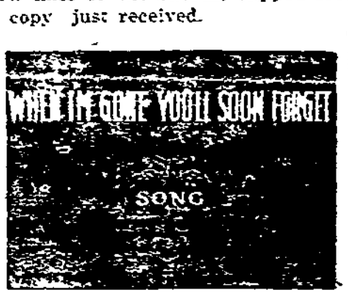
Don't put it off but get a jar today. If your druggist does not keep it, send us 35c and the parcel post will bring it to your door by return mail. Wm. M. Simpson Drug Co., Wholesale Druggists, Wilkinsburg Station, Pittsburg, Pa.

NEW YORK'S SENSATIONAL WALTZ BALLAD

A Tune That Haunts the Heart

A new song that is now all the rage in New York and throughout the country, "When I'm Gone You'll Soon Forget." Despite the fact that it has only been published a few weeks this ballad is said to rival any sensational song hit published within recent years. Of course there is the usual mystery in the ending of the story of this song, like the continuation of a love story in a magazine. But everybody seems to glory in the mystery. The following are a few lines of the chorus, clipped from a copy just received.



When I'm Gone You'll Soon Forget

REFRAIN.
When I'm gone you'll soon for-get me
When from you I'm far a - way You'll
be hap-py in the old home. That yes
years for day by day. In your heart
Copyright Harland Co. Perm. Louis Schlesinger.

Although this song is written without a high not, a beautiful effect has been obtained by the simplicity of the arrangement. Orchestras and bands everywhere are playing this melody as a waltz. This number can be had for your Talking Machine and Player Piano.

AT LAST—A POSITIVE RELIEF FOR RHEUMATISM

Money Back If It Fails

No medicine on earth will relieve rheumatism, lumbago, sciatica and eczema. You know that from experience. There is only one sure relief in the world—and that is the Hot Sulphur Spring Baths. But how many can afford to go to the great expense which a trip to these curative resorts involves?

Do you know that you can now have the same identical Hot Sulphur Baths in your own bathtub and get the same quick relief that you would get at the best Hot Sulphur Springs in the world?

Captain Robt. E. Wilson, U. S. A., 314 S. Wardman Courts, Washington, D. C., says: "In September I had a severe attack of rheumatism which made walking very difficult for me. I read your advertisement and bought a course of SULFLUID treatments. Before I used half of it the rheumatism had disappeared and for the first time in 15 months I was absolutely free of pain. SULFLUID did the work!"

SULFLUID is not a patent medicine. It is merely the trade name of a wonderful scientific discovery that has baffled chemists for centuries. It possesses exactly the same curative properties of Hot Sulphur Spring waters. It is used the same way—as a bath. It is absolutely harmless. It is guaranteed to relieve your Rheumatism, Neuritis, Lumbago, Eczema and skin eruptions or money refunded. Ask for booklet explaining SULFLUID.

In the various contests where the issue is Americanism vs. Internationalism, the victories of Americanism are of steadily increasing deciveness. Soon the scuttlers will be on the run.

Scotland Yard.

Scotland Yard, so often mentioned in connection with London police items, was a building at the southeastern corner of Charing Cross, long famous as the headquarters of the metropolitan police force. It was so called because it was once a palace set apart from the time of Henry II (1154) as the residence of Scottish kings on visits. New Scotland Yard is on the Thames embankment.

Doing Fine.

Dick, whose father drives an automobile, is much interested in the operating of the car, especially the position of the gear shift lever. One day when some one asked him how his little sister, who was sick with the flu, was getting along, he replied: "O she is getting along fine; her fever was down to neutral this morning."

"LUCK IN PAWN" TO BE SEEN AT COYLE

The familiar story of the country girl who aspires to be a great artist is given a grand new twist in "Luck in Pawn," Marguerite Clark's latest Paramount-Artcraft picture, which which will be the attraction at the Coyle theatrefor two days, beginning Thursday. The treatment of the play is radically different from the usual style of such pictures, in which is entwined a pretty love story, with a rather startling ending. The play furnished a thoroughly entertaining comedy picture in Miss Clark's best manner.

BEES HOUSED IN "COTTAGES"

Lithuanian Raisers of Honey Furnish Really Attractive Homes for the Insects.

Beehives in Lithuania are not the comfortable round igloolike huts that are commonly used in America. They are built very much like the Lithuanian home, with slanting gable and quaint doorway.

The cottages which they build are considerably larger than the round American hives. Double walls are built so that a protective warmth may be kept in the hives and prevent the bees from freezing during the extreme cold of the long winters. Pine wood is always used because it is supposed to be a greater protection against cold and because it is the most common tree in the forest lands of the country.

It is in the coloring of the hives that the Lithuanian asserts his individuality. The life of the Lithuanian has been starved of liberty and self-assertion during centuries. He has been oppressed by Germans and he has been oppressed by Russians—not only his art and his literature but even his language has been suppressed.

During the years of oppression one of the chief amusements and art mediums was the painting of hives. The highest degree of artistic beauty was often realized. Color combinations of originality and richness were strived for. And it is notable that a bee farmer tried as many different schemes as possible, so as to differentiate the hives from one another.

EGGS WITH QUEER MARKINGS

Many Interesting Designs Noticed in Those Laid by Wild and Domestic Birds.

Woodpeckers' eggs are of the purest white and so highly polished as to resemble finest porcelain.

The egg of the California partridge is covered with a delicate pinkish bloom which the slightest moisture will destroy. The mere touch of a finger will mar it.

Eggs of certain flycatchers have their surface marked with fine lines running lengthwise from end to end and looking exactly as if made with pen and ink.

A South American cuckoo lays an egg that has a chalky coat spread over it in such wise as to form a uniform network, the blue color of the shell showing in the spaces between the lines. Thus it looks as if covered with a fine white net.

Hens often lay malformed eggs, some of which are shaped like crooknecked squashes, while others resemble jugs with handles. Now and then an egg of farmyard origin contains a smaller egg, the latter complete, shell and all.

Insult to Royalty.

The ideas of the world change; what is unwelcome today becomes welcome tomorrow. There is an interesting bit of evidence of that in an amusing incident, long forgotten and now brought to light.

When postage stamps first came into use in England, some persons declared that the effigy of majesty was too sacred to serve as a label for letters.

"Have you seen the stamps yet?" wrote one ardent loyalist in 1840. "This is the greatest insult the present ministry could have offered the queen."

King Ferdinand of Sicily took the matter so seriously that he had a special postmark made in the shape of a frame, so that the officials could cancel the stamps without striking his portrait.

Discards the Modern Age.

Although the British have occupied that part of Burma from which some of the best teak is extracted for nearly a century Burma tree-fellers still prefer their own axes to any of the various kinds which have been imported from time to time from Europe or America. This implement, called a poksin in Burmese, is about an inch broad, and ten or twelve inches in length. Fitted with a wooden handle cut from the neighboring jungle, the Burman erects a scaffold of bamboo around the trunk of the tree to be felled, which may be 12 or 15 feet in circumference, about five feet from the ground, manage to bring it down by his vigorous and repeated strokes within a few hours.

There is one flower that contains within itself so complete a compendium of the story of the cross that it is fittingly called by the name of passion flower. It blossomed about Holy Rood day. The thread-like colored stamens, which surround the flower-like rays, and some other portions of its delicately constructed blossom, attracted the notice of the Spaniards in their conquest of America. The different parts of the blossoms figured to their enthusiastic imaginations the numbers of the apostles, the rays of glory, the nails, the hammer, the sponge, the cup, and all the sad signs of the Savior's passion, hence they called it the passion flower.

Quite Natural.

"This clock you sold me last week is extremely variable and erratic," complained the customer with the package under his arm. "It looks pretty, but it cuts up scandalously and—"

"Ah, but, sir," suavely interrupted the jeweler, "you forget that it is a French clock."—Kansas City Star.

"I'm Buying a Share of West Penn Stock for the New Boy at Our House"

"The little lad may be President when he grows up. But he'll have to be educated and as the nucleus of his college fund, his mother and I decided to buy a share of West Penn Railways Preferred on your deferred Payment plan. In 16 months, he'll be a stockholder."

IT ISN'T OFTEN A HIGH class security can be bought on installment payments.

THESE PARENTS ARE taking advantage of the opportunity.

AND BESIDES PROVIDING for their small son's education, they are learning how to save. The quarterly dividends will be put in the college fund, too.

$5 Down and $5 a Month Are the Very Liberal Terms on Which You Can Buy West Penn Stock

DROP IN AT ANY DISTRICT office and sign up for as many shares as you feel able to carry.

THERE IS NO BETTER way of teaching yourself the art of systematic saving.

BUT YOU DO MORE—you invest your money judiciously, in a big, prosperous utility that operates where you live.

AND YOU ARE ASSURED of a generous return, not overnight wealth.

West Penn News Notes

The new $6,000,000 power station at Springdale will soon be turning another mighty stream of electricity into the lines.

To carry coal to the big Connellsville plant, the West Penn recently purchased 70 new steel gondolas. They cost close to $2500 each.

The West Penn Railways Company is soon to establish freight and express service over its lines in the coke Region Division.

Close to 400 mines are now being operated by West Penn power.

On June 1, the West Penn will move into its new home in Pittsburg, the 12 story West Penn building, purchased at a cost of over one-half million dollars.

SOLAR SYSTEM MADE PLAIN

Illustration Given by Herschel Is Probably the Most Comprehensive Ever Devised.

Perhaps our most graphic picture of the solar system is given by Herschel. Imagine a circular field two and a half miles in diameter; place a library globe two feet in diameter in the very center; 82 feet away put a mustard seed. The globe would represent the sun and the mustard seed Mercury.

At a distance of 142 feet place a pea, and another at 215 feet. These will represent Venus and the earth, both as to size and distance. A rather large pinhead at a distance of 327 feet will speak for Mars, and a fair-sized tangerine a quarter of a mile distant will stand for Jupiter. A small lemon at two-fifths of a mile will play the role of Saturn, a large cherry three-fourths of a mile distant will answer for Uranus, and a fair-sized plum at the very edge of the field will proclaim Neptune.

Eighty moons would be required to make one earth. A player there could throw a ball six times as far as it can be thrown on American diamonds. A man weighing 150 pounds there would weigh 900 on the earth. The earth receives as much light and heat from the sun in 13 seconds as it gets from the moon in a whole year.—From a Bulletin of the National Geographic Society.

LEFT REST OF TRIBE IN CAVE

Mandan Indian Legend Says Fat Woman Broke Down Only Exit to the Upper World.

The fundamental simplicity of the American aborigine is illustrated best in the Indian myths and legends which have come down to us, asserted Dr. Rudolph Rieder in an address before the Wisconsin Archeological society.

"These myths," Doctor Rieder said "cannot be translated into pretty phrases, as in that case the simple beauty of the original is lost.

"There is a rather interesting legend concerning the origin of the Mandan tribe. It says that once the Mandans lived underground in a cave from which a large vine grew. One young warrior climbed up this vine one day and liked the country so well that he induced several of his tribesmen to follow him up the vine into the world outside. Several chiefs and warriors did so, as well as many women, but when a fat woman tried to climb out of the cave, against the counsel of the chiefs, the vine broke and the rest of the Mandan tribe had to remain underground. This fable may account for the fact that the Mandans were a relatively small tribe and also for their antipathy to fat women."

Make Friends With Horses.

One reason given why native Arab horses are generally exceedingly friendly and fearless is that they are often brought up almost in the midst of their owner's children, and are used to being handled and petted from the time they are tiny foals. Whether this is true or not, it is certainly a good plan for anyone who has a pony to make friends with him. It is worth while spending a lot of time in the stable talking to him and getting him to have perfect confidence in you. It should be remembered in handling horses and ponies actions should be quiet and deliberate. Once a pony and his master get to be "pals" riding and driving become far more interesting—almost, in fact, like going 'round the country with a friend you can talk with.—Christian Science Monitor.

Chinese Paradise Fish.

A little Chinese fish known as the paradise fish is remarkable for its brilliant coloring of crimson and blue. In the sunlight it shines in a rainbow glow of color. The dorsal fin extends from near the back of the head to the tail. The paradise fish was first brought to France from China by M. Simon in 1869, having been found in a brook near Canton. The most interesting thing about this little fish is the nest made by the male for the reception of the eggs. It makes a little floating nest of glutinous bubbles below the surface of the water, and measuring up to six inches across. Here it places the eggs, some 200 in number, and mounts guard over them.

Mahogany.

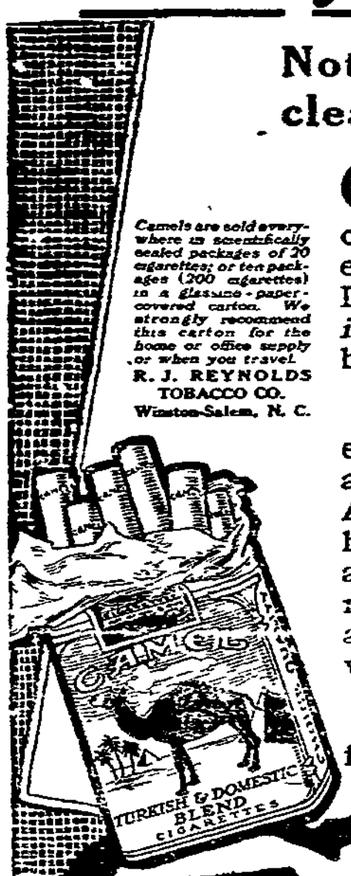
One of the materials cabinet makers delight in using is mahogany. The timber most prized by them is that of "Swietenia mahogani," found in Central America and the West Indies. The largest of these trees attain a height of 60 to 100 feet, with a diameter of six feet. However, these dimensions are not common. The wood, which is capable of receiving a high polish, is of a reddish brown color, and varies widely in its shades and markings. Employment is given to a large number of men and oxen in cutting and removing the timber to the coast for export.

Long-Lived Trees.

At Fountain abbey, Yorkshire, England the yew trees were old when the abbey was built, in 1132. California has a very ancient tree in Mariposa grove. This is a "redwood," which is credited with many hundred years. Baobab trees of Africa have been computed to be more than 5,000 years old, and a deciduous cypress at Chapultepec is considered to be of a still greater age. Humboldt said that the Dracaena Draco at Orotova, on Teneriffe, was one of the oldest inhabitants of the earth.

Mind you!

Not premiums or coupons but clean cut merit won for Camels!



Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

CAMELS leave no doubt in your mind as to how you stand on the choice of cigarettes! Camels quality and Camels expert blend of choice Turkish and choice Domestic tobaccos settle that *to your satisfaction!* And, you'll prefer this Camel blend to either kind smoked straight!

Camels refreshing flavor alone is a revelation, but their smooth mellow-mildness and satisfying body just cap the climax! And, they never tire your taste, no matter how liberally you go to them! And, you'll also learn what it means to smoke a cigarette free from any unpleasant cigaretty aftertaste or unpleasant cigaretty odor when you smoke Camels.

You've certainly got a surprise waiting for you when you compare Camels with any cigarette in the world at any price.

THE CHARLEROI MAIL

VOLUME XX—NO 294 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, TUESDAY, MAY 18, 1920 TWO CENTS

GRAND OFFICERS OF THE P. H. C. TO VISIT CHARLEROI

Will Confer Highest Degree On A Large Class Of Applicants

SOCIAL FEATURES PROMINENT

Outsideof a few finishing touches and decorations, all arrangements for the Grand Inner Circle degree to be given in Charleroi on Wednesday evening by the Grand Inner Circle officers, assisted by the members of Charleroi Circle of the P. H. C., are complete.

A reception will be held in the parlors of the Hotel Wilbur, Wednesday afternoon from five to six o'clock for the officers of the Grand Inner Circle in which all members of the local Circle are expected to take part. The degree will be conferred in Might's auditorium, which has been specially furnished for the occasion. The banquet to the visiting officers and local members will be served in the dining room of the First Christian church by the Ladies' Aid Society, and this promises to be the feature of the occasion. An address of welcome wil be delivered by Major H. J. Repman, and response will made by President A. C. McLain of Sharon.

A pleasing as well as a complimentary feature of the evening will be the conferring of the Grand Inner Circle Degree on fifty-two members of the Charleroi Circle, who served in the army during the great war. This honor will be conferred as a result of the efforts of Deputy Joseph H. DeRusha, and is one that will be highly appreciated by the recipients.

Grand Circle Degree Master Evan M. Roberts will arrive from Pittsburgh about one o'clock Wednesday afternoon and a rehearsal will be held in the auditorium by members of the degree team. Over fifty members have qualified for the honor.

Visiting delegations will be present from Uniontown, Brownsville, Connellsville and Jeannette. The visitors will be in charge of Mrs. Maud M. Crookard, local deputy for the Uniontown district. Charleroi is fortunate in securing the services of the Grand Circle officers in putting on this special feature of the P. H. C. work. After the degree has been conferred a social hour will be spent in dancing by members of the Order from 12 to 2 o'clock.

PREPARING FOR WORK ON DONORA ROAD

The contractor for the improvement of the highway between Donora and Monongahela City is preparing to resume work on the stretch of road left uncompleted last fall. For several days men have been at work near the Schoenberger tipple getting machinery and other appliances ready or service and it is anticipated that within a few days operations will actually begin.

IS THIS PROFITEERING OR JUST PLAIN GRAB

"Everybody's doin' it," seems to be the slogan, at least one of our citizens is under that impression after an experience of last Saturday evening. He went to two shoe shine parars to purchase a box of shoe shine. At the first pace he was asked 40 cents for the box, and at the second place 35 cents. Today he discovered that he can buy the same size box at local—stores for 10 cents. Quite a difference.

QUEEN ESTHERS TO OBSERVE ANNIVERSARY

The Queen Esther Circle of the Methodist Episcopal church met at the home of Miss Hazeldell Lambert Friday evening, May 14, with thirty-eight members present. Miss Lambert and Miss Mattie Kelly were hostesses. In a very pleasing manner the leaders, Mrs. Bruce Barnett and Miss Elizabeth Frew told of the laudable virtues of Esther, the character from whom the Circle gets its name. A duet, "Ho, Reapers," was rendered by Misses Elva Majors and Irene Chester. After the study hour the meeting was turned over to the mite box secretary, Miss Vida Goehring who conducted the annual mite box opening in a unique manner. A reading, "A Mite ix Soliloquy," was given by Evelyn Warrensford. The amount realized from the mite box collection was 51.39, with Miss Phyllis Murray receiving first honor for having the largest individual amount and Miss Mattie Kelly with the second largest amount. All mite box money goes for Travelers' Aid Work.

The business meeting was conducted by the president, Mrs. Wesley Peters, at which time plans were made for a birthday party, to be held June 8th, to commemorate the fortieth anniversary of the Woman's Home Missionary Society.

On Sunday evening, June 6th, a preparatory service will be held, at which time Miss Mary B. Collins, deaconess from Pittsburg, will be the speaker of the evening.

A pleasant social hour followed, after which the meeting adjourned to meet Friday evening, June 11th.

David Firrik, Jr.

David, infant son of Mr. and Mrs. David Fiffik, Sr., of 901 Crest avenue, died at the Allegheny General hospital Monday night. The remains were brought to Charleroi early this morning and the funeral will be held at 9 o'clock Thursday morning from St. Jerome's church, with interment in Calvary cemetery.

The road from Black Diamond to Nelson's hollow has been completed, as well as a short stretch outside of Donora, leaving about a mile yet to be constructed. With favorable weather the contractor should be able to complete the remainder of the highway before mid-summer.

LACK OF MATERIAL HOLDS UP ROAD WORK

Lack of material resulting from the congested condition of railroad traffic is handicaping work being done on the roads of the county. Cement is being hauled from the plant of the Universal company near Washington by automobile trucks to the Donora-Monongahela road and good progress is being made It is expected however, that practically all road work will be delayed for some time, owing to conditions which have prevailed on the railroads for the past six weeks, and which have held up shipments of all kinds. It will take some time to overcome the embargo, inasmuch as the railroads are seeking the privilege of placing freights on the priority list, food and fuel to have the preference. This condition may tend to delay shipments of road material until some time later in the summer.

CAMPAIGN TO RAISE AN ATHLETIC FUND

The alumni of the California Normal school is undertaking a campaign to raise a fund of 10,000 which will be used to further an athletic program for the benefit of the students of the school. In order to further the interests of the campaign a general committee has been appointed, consisting of one member of each of the graduating classes from 1879 to 1919 inclusive to solicit funds for the undertaking.

At one time the California Normal had good athletic teams, both in football and base ball, and turned out some fine players, who added to their reputations in other schools after leaving California. It is the hope of the committee to restore much of the prestige of the school by means of athletics, in order to secure the attendance of more young men. Prof. T. L. Pollock will represent the class of 1900 in the campaign.

ORGANIZE LEAGUE OF WOMEN CITIZENS

A branch of the League of Women Citizens was organized Saturday afternoon last in Charleroi, when a meeting was held in the public meeting room of the municipal building, which was addressed by Miss Slichter, a League organizer. After explaining the purposes of the organization the Charleroi branch was organized by the election of Mrs. C. Warren Kinder as chairman, Mrs. Eugene Duty as vice-chairman, Miss Clara Cooper as secretary and Mrs. R. H. Rush, treasurer. It is the purpose of the local League to begin a membership campaign, which will continue until the 15th of June, during which time they hope to enroll a large number of women of Charleroi. The League will meet from time to time to instruct its members in the manner and method of voting and in civil government.

RIVERMEN'S DEMANDS ARE NOT YET GRANTED

The report which came to The Mail on Monday and which appeared to have a responsible foundation, with respect to the proposed strike of the rivermen, seems to have been an error. The news came to the lock on Sunday, according to a report made by a Captain of one of the Pittsburg Coal company's boats and it appeared to be authentic However, it seems that the steamboat owners have not made any change in the rate of waoges, and according to the latest information, believe the present schedule is emply sufficient in its proportions. The date for suspension, if any such thing should take place, has been fixed for Saturday or Monday next, definite date not determined, but the steamboat owners believe they will be able to keep their steamers in operation regardless of what action the Longshoremen may take.

OPPOSES TEACHINGS OF HIS STEPFATHER

Rev. W. M. Fincke, one of the six men arrested in Duquesne on Sunday, May 9, for trying to speak in public without a permit, is the stepson of James W. Ellsworth, multi-millionaire coa l operator, it was learned a few days ago. Mr. Ellsworth was the founder of the town of Ellsworth and developed the big mines at that place something over twenty years ago.

Fincke is a graduate of Yale and was picked by Walter Camp as a quarterback on the All-American eleven. After leaving college Fincke took up special work as a Presbyterian minister in New York and is now head of the Brook Wood School at Katonah N. J. He left for his home on Sunday but will return on May 25 to appear in County Court in Pitsburg to answer the charges made against him. Mr. Ellsworth was bitter against radical movements, such as his stepson took part in.

Fort Wayne News—With the farmers short of help and three weeks behind in their work, it is easy to see where we're going to be shy of food next fall.

"LUCK IN PAWN"

THURSDAY And FRIDAY

COYLE THEATRE

R. O. VETTER DISCONTINUES CLOTHING AND FURNISHINGS

Will Embark In The Auto and Accessory Business In Present Location

EXPECTS TO TAKE VACATION

R. O. Vetter, who has been in the clothing and gent's furnishing business in Charleroi for the past twenty-one years, has decided to give up that line of merchandising to engage in a new venture. As a preliminary to this step Mr. Vetter concluded a deal on Friday last by which his entire stock now in his store at 415 Fallowfield avenue will be disposed of within the next few weeks. What portion of the stock is left at the conclusion of the sale will be taken over by the Pittsburg Salvage company for disposal elsewhere.

It is the purpose of Mr. Vetter to embark in the automobile business, in which his son William F. will be a partner, the firm name being R. O. Vetter & Son. They will handle the Grant and other makes of automobiles as well as installing a service station and handling accessories.

After the sale it is Mr. Vetter's intention in company with his wife, to take a vacation, during which time he will visit a brother in Indianapolis, Ind., another in Meadville, Pa., as well as s pending some time with relatives in Uniontown. It is Mr. Vetter's intention to return about the first of August, when he will enter into his new undertaking. It is his purpose to remodel his present store room for a show room, for automobiles, with a department in the rear for accessories.

It is expected that the changes in the show room will be made so that it can be put in use for the display of automobiles by the first of July, with Wm. Vetter in charge. Mr. Vetter believes there is a very inviting field in the auto and accessories business at the present time, and having a favorable opportunity to dispose of his present stock decided to make the change.

BIRTHDAY PARTY FOR DAUGHTER

Mrs. Patrick O'Rourke entertained at a birthday party Monday evening from 4 to 6 o'clock in honor of her daughter Clara, who celebrated her sixth birthday anniversary. A large number of little folkks were present, and the time was spent in playing games, after which refreshments were served. The honored guest was the recipient of a large number of presents.

BRAKE WOULD NOT HOLD HEAVY TRUCK

A truck on the way from McKeesport to Canton, Ohio, going up Fifth street Monday after about 5:15 o'clock with a load of furniture met with an accident near Lincoln avenue. The driver said he was going to Washington, and had been directed up Fifth street. Just above Lincoln avenue the truck started back down the street, the brake failing to hold the machine. It finally backed up over the curb and hit a telegraph pole, which it broke square off, but the machine was stopped in its downward career. LonMcVeywas summoned and with the use of his machine and tackle got the truck out of its predicament after which it was directed out Lincoln avenue on its way to the county seat. The truck was not damaged.

FREIGHT CONDITIONS ARE MUCH IMPROVED

Five road crews and nine yard crews were at work at the Newell yard of the P. & L. E. railroad on Sunday and officials of the road are encouraged to believe that the peak of the strike has been passed, and that from this time on conditions on the line will improve. As a result of the betterment of freight conditions on the Lake Erie quite a number of mines which were down for six weeks have been able to resume, thus giving employment to a large number of additional men. On the Pennsylvania conditions are normal and a large number of trains are sent over the Monongahela Division each day.

Born—To Mr. and Mrs. McIlvried, of 807 Fallowfield avenue, at 11 a. m. Tuesday, May 18—a son.

NOTICE TO RETURNED SOLDIERS

All members of the Protected Home Circle who have seen service are entitled to the Grand Inner Circle Degree to be given at Might's Auditorium Wednesday May 19. Any returned s oldier wishing to take the degree should see Mr. Joseph DeRusha at his home 539 Fallowfield avenue by noon Wednesday. May 19. 293-t3*

SEASON OPENED BY HOMING CLUB

Last Sunday the Charleroi Homing Pigeon Club held its first race of the season for prizes, from Cadiz Ohio, and it proved to be one of the most exciting events ever held by the organization. It was so close that first and second prizes had to be split between P. Bayner and P. J McGuire. Arrigo was third, being only fifteen seconds behind the other two. Acker was fourth, being one minute behind Arrigo. Vegro was fifth, Richards sixth, Duttine seventh. There were some that did not report before twelve o'clock. The Club will fly to Coshocton on Sunday next, and all members are requested to put their birds in by Friday night, and to set timing clocks.
